

The Emergency Management webinar series is designed to provide participants with up-to-date information on emergency management best practices, approaches, strategies, technologies, as well as individual experiences and success stories. Each webinar involves various speakers presenting on and sharing their experiences related to the chosen topic. At the end of each session, there is an opportunity for questions posed by participants and those submitted in advance via email. In addition to airing live, each webinar is recorded and available for future viewing. These webinars are designed for emergency management practitioners though applicable to anyone with an interest enhancing their emergency management knowledge.

Webinar #38 Introduction to Business Continuity Planning (BCP)

The emergence of COVID-19 and the growing frequency and magnitude of fire, flood and severe storm events has intensified the focus on First Nations and Local Authority preparedness. Elected officials and public servants must continue to serve their communities even when internal operations have been impacted.

Business Continuity planning allows First Nations and Local Authorities to protect residents and the critical services they rely on despite challenging or extreme circumstances. This session will:

- Explain the difference and connection between Emergency Management and Business Continuity.
- Provide a brief overview of Business Continuity fundamentals.
- Demonstrate the value of Business Continuity.

To submit questions in advance, please email them to emwebinars@jibc.ca by **Tuesday, 27th, Oct 2020** and join us for the webinar to hear responses from the speaker/panel.

Speakers:

- Rian Jones, Senior Advisor, Business Continuity Management Program EMBC
- Ryan Wainwright, Senior Regional Manager, Vancouver Island Region (VIR) EMBC

Date: WEDNESDAY, October 28, 2020

Time: 10:00 – 11:00 AM (Pacific Standard Time)

Access URL: <http://jibc.adobeconnect.com/emwebinar38/>

Access to the webinar will **open 15 minutes before start**, log in using the Guest Access, a username and password are not required at that time.
